

Mini CV for Ulf Hansson

**Born 1951**

BSc in mathematics (2/6), computer science and numerical analysis (3/6) and statistics (1/6), Linköping University, 1978

1978-1986

Stockholm University, Department of Meteorology  
Weather forecasts, dynamical meteorology

1986-1987

ECMWF (European Centre for Medium-range Weather Forecasts) Reading, England.  
Mainly graphics

1988-1997

Stockholm University, Department of Meteorology  
Air chemistry

Some work was done at:

Max Planck Institute for Chemistry in Mainz

Max Planck Institute for Meteorology in Hamburg

DKRZ (Deutsches KlimaRechenZentrum) in Hamburg

Laboratoire de Modélisation du Climat et de l'Environnement (LMCE) in Gif-sur-Yvette.

Some work was done in the European research programmes:

GLOMAC (GLObal Modelling of Atmospheric Chemistry) within EUROTRAC.

SINDICATE (Study of INdirect and Direct Influences on Climate of Anthropogenic Trace gas Emissions).

1996-1997

I was on leave from the university working in the programme

ECCN (European Climate Computer Network)

Six months in Météo-France in Toulouse,

And six months in LMD (Laboratoire de Meteorologie Dynamique) in Paris.

Work with output formats of the models Arpège and LMD.

1997-

Rosby Centre at SMHI (Swedish Met. office)

Climate research
