

ICE REPORT

2025-12-29

BAY OF BOTHNIA

10-20 cm fast ice in the most northern bays. Otherwise level ice and some new ice in the archipelago.

Cold but windy conditions, ice growth not expected.

THE QUARK

Some new ice in bays and archipelagos.

Cold but windy conditions, ice growth not expected.

NORTHERN SEA OF BOTHNIA

Level ice on Ångermanälven.

Cold but windy conditions, ice growth not expected.

ARCHIPELAGO SEA

Thin new ice may be found in inner bays.

The coming days no significant ice growth.
