# **ICE REPORT**

2025-12-29

### **BAY OF BOTHNIA**

10-20 cm fast ice in the most northern bays. Otherwise level ice and some new ice in the archipelago.

Cold but windy conditions, ice growth not expected.

# THE QUARK

Some new ice in bays and archipelagos.

Cold but windy conditions, ice growth not expected.

# **NORTHERN SEA OF BOTHNIA**

Level ice on Ångermanälven.

Cold but windy conditions, ice growth not expected.

### **ARCHIPELAGO SEA**

Thin new ice may be found in inner bays.

The coming days no significant ice growth.
