

# Denica Bozhinova

E-mail: denica.bozhinova@smhi.se

URL: <https://www.linkedin.com/in/dbozhinova>

Work Address: Folkborgsvägen 17, SE 60176 Norrköping, Sweden

Work Phone: +46(0)11-4958467

---

## Research experience

### Researcher & Developer

Hydrological Research and Development Unit,  
Swedish Meteorological and Hydrological Institute, Norrköping, Sweden

2018 – current

- Climate extremes in the past and future climate
- Future climate projections and climate indicators
- Bias correction and evaluation
- Climate science information capacity development

### Post-doc researcher

Oeschger Centre for Climate Change Research, University of Bern,  
Bern, Switzerland

2016 – 2018

- Regional climate dynamical downscaling
- Modeling software development (WRF)
- Bias evaluation and correction

### Research assistant, Ph.D. student

Wageningen University, Wageningen, the Netherlands

2009 – 2013

- Modelling software development (WRF, SUCROS)
- Validating and assessing model performance, sensitivity studies
- Designing numerical and field experiments
- Executing experimental field and laboratory work

## Education

### Ph.D. in Meteorology and Air Quality

Wageningen University, Wageningen, the Netherlands

2009 – 2015

Thesis title: “Interpreting plant-sampled  $\Delta^{14}\text{CO}_2$  to study regional anthropogenic CO<sub>2</sub> signals in Europe”, defended on 21.10.2015

### M.Sc. in Meteorology

Sofia University “St. Kliment Ohridski”, Sofia, Bulgaria

2006 – 2008

Thesis title: “Analysis of the climate variability for the Balkan peninsula”

### B.Sc. in Physics

Sofia University “St. Kliment Ohridski”, Sofia, Bulgaria

2002 – 2006

Thesis title: “The phenomenon of El Niño and Southern Oscillation – behaviour and physical mechanism”

# Skills

Software:	Working experience with Windows, Linux, Mac OSX, office applications, LaTeX
Programming:	Strong experience with Python, working with Fortran, HPC systems, code development and version control with Git.
Numerical models:	Development and proficient use of regional weather and climate model (WRF-Chem) and crop growth model (SUCROS)
Data analysis:	Using Python for pre- and post-processing of large (NetCDF) datasets, data visualization and statistical analysis; Bias-adjustment and evaluation
Organisation:	Planning of scientific symposium and field experiments; social and team building events for staff, students and guests
Communication:	Experienced in communicating interdisciplinary research to non-scientists, most recently used in training workshops on the use of climate science information for climate action
Languages:	Bulgarian (native), English (fluent/C2), Swedish (intermediate/B1)

# Academic activities

## Journal publications

- Berg, P., Almén, F., and **Bozhinova, D.**: *HydroGFD3.0 (Hydrological Global Forcing Data): a 25 km global precipitation and temperature data set updated in near-real time*, Earth Syst. Sci. Data, 13, 1531–1545, <https://doi.org/10.5194/essd-13-1531-2021>, 2021

## Recent workshops and trainings

- WMO Climate Science Information for Climate Action Regional Workshop, Jakarta, Indonesia, 2023 (*trainee*)
- WMO Climate Science Information for Climate Action Regional Workshop, Johannesburg, South Africa, 2022 (*trainer*)

## Selected work

- [European hydrology and climate data explorer](#) and [European hydrology seasonal forecast explorer](#) - Applications developed for the Copernicus Climate Change Service as part of the *Operational service for the water sector*
